# A Custom Look without Cutting Corners™

Upgrade plain, plate glass mirrors with the unmistakable appearance of a beautiful custom-made frame.

 mirrorscapes®

MIRROR FRAMES

It began as a plain, plate-glass mirror. Now it's a dramatic style statement that brings the whole room together, while bringing additional revenue to your bottom line. With Mirrorscapes<sup>®</sup> Mirror Frames from Moen<sup>®</sup>, you can transform that dull mirror into the very focal point of the room — in minutes!

Mirrorscapes<sup>®</sup> are available in a variety of styles and finishes to complement any home design.

## m mirrorscapes<sup>®</sup>

### MIRROR FRAMES

- Achieve a stunning custom look with out the expense of custom carpentry
- Remarkably quick and easy to install
- Breakthrough installation process eliminates the painstaking task of making angled miter cuts
- Available in a variety of metallic and wood finishes to coordinate with faucets, accessories and cabinetry
- Adds value to both new home construction and remodeling jobs
- Beautiful, durable all-wood frame
- Backed by a Limited Lifetime Warranty

On the cover: 2000 series in Brushed Nickel

## Mirrorscapes® 1000 Series

Beautifully crafted details true to authentic woodworking bring a natural style and sophistication to the entire room.

Now you can give your mirror the beauty of a handcrafted frame without the expense of custom carpentry. The unique frame assembly system of Mirrorscapes® is designed to make installation as simple as possible, even eliminating the painstaking task of making miter cuts.

**mirrorscapes®**  
MIRROR FRAMES

## Quick and Easy Installation:

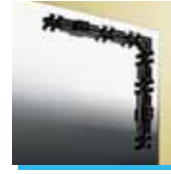

1. Remove backing to expose adhesive on mounting brackets.

2. Position corner template on the mirror.

3. Guided by template, secure corner mounting bracket to mirror.

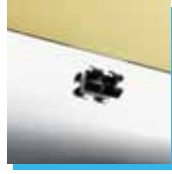

4. Once secure, remove template. Repeat process on all corners of mirror.

5. Center straight template at edge of mirror.

6. Guided by template, secure straight mounting bracket to mirror.

7. Once secure, remove template. Repeat on all sides of mirror.

8. Attach decorative corners onto corner mounting brackets.

9. With a marker, trace inner edges of each corner piece, then remove all corner pieces.

10. Measure between marked lines to determine length of straight pieces.

11. Cut straight pieces to measurements.

12. Press straight pieces onto mounting brackets.

13. Press decorative corners into place.
