MOEN COMMERCIAL

BUILT FOR THE REAL WORLD

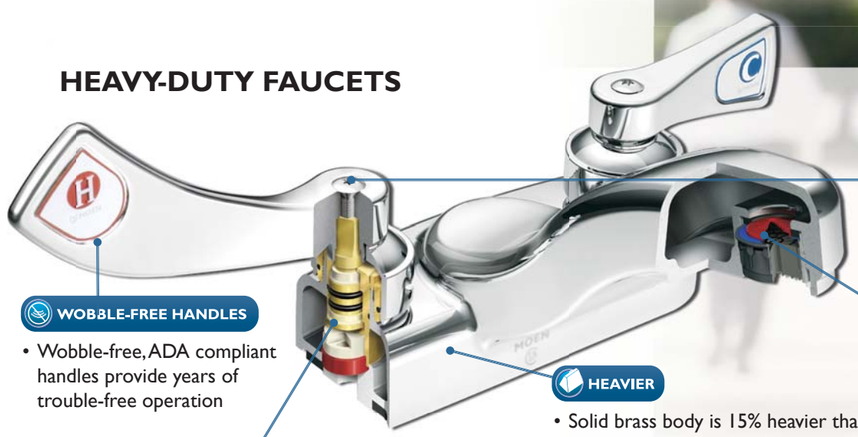

Made HEAVIER to LAST LONGER.

Got a demanding environment? Demand Moen Commercial.

Designed for constant use and abuse, Moen products are tested at every stage for design integrity, durability and safety while providing the energy-saving performance that school buildings require. Our products are virtually maintenance-free and are backed by an incredible 5-year limited warranty, providing **lower lifetime cost** for your facility.

Moen has developed products
Designed specifically to limit vandalism in educational facilities

HEAVY-DUTY FAUCETS

WOBBLE-FREE HANDLES
- Wobble-free, ADA compliant handles provide years of trouble-free operation

TESTED TOUGH
- Anti-wear bushings tested through 3-million cycles

VANDAL RESISTANT
- Tamper-proof screws require a special tool for servicing

WATER WISE
- Low 0.5 gpm aerators

HEAVIER
- Solid brass body is 15% heavier than the competition to last longer

5 YEAR WARRANTY
- Against materials or manufacturing defects

Moen is a member of the U.S. Green Building Council. Moen is committed to engineering a wide selection of products that conserve resources and maximize energy efficiency in commercial applications, providing lower lifetime costs for building owners and operators.

METERING FAUCETS

- **Vandal resistant all-metal construction**
- **Durable brass shell cartridge with adjustable timing mechanism**
- **Pressure independant cartridge - works at every pressure**
- **0.5 gpm max. (0.25 gpc) vandal-resistant aerator**
- **Conserves energy by delivering water only when needed**

FreeHand

SENSOR-OPERATED FAUCETS

- **Vandal-resistant all-metal body**
- **Temperature adjustment allows user to control volume and temperature**
- **0.5 gpm max (1.9 l/max) vandal-resistant aerator**
- **AC or DC powered models**
- **Conserves energy by delivering water only when needed**

FreeHand

SENSOR-OPERATED FLUSH VALVES

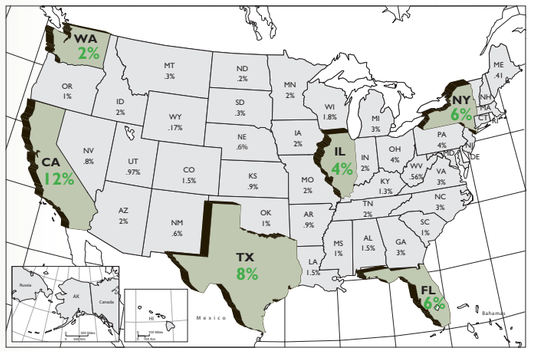

- **Advanced electronics limit false sensing and overflushing**
- **Solid brass body stands up to constant usage**
- **Piston technology prevents water hammer, requires little or no maintenance**
- **Hands-free operation limits spread of germs**
- **AC or DC powered models**

Built for a BETTER WORLD.

Moen Commercial faucets and flush valves contribute toward earning LEED® credits in water efficiency and offer the ultimate in sanitary protection and resource conservation by encouraging cleaner restroom facilities, **lower lifetime cost** and energy-saving opportunities for years of dependable service. Because our products aren't just **Built for the Real World.** They're built for a better world.
