

# Stainless Steel Sink **BUYING GUIDE**

*Buy it for looks. Buy it for life.®*

# Your sink. Your style.

Whether you're peeling veggies, filling a stock pot or just washing your hands, you spend more time at your sink than in any other area in your kitchen. So choosing a sink isn't a decision you should make on a whim.

Moen offers a growing selection of quality stainless steel sinks in four distinct lines – Lancelot Professional®, Lancelot®, Camelot® and Excalibur®. All deliver exceptionally quiet service thanks to the state-of-the-art sound-deadening properties of our SoundSHIELD™ undercoating. With more than 50 models to choose from in a broad range of shapes, sizes and configurations, how do you decide which one is right for you?

As you browse through this guide, envision your kitchen and the way you intend to use it. Look for featured sinks that match each type of kitchen shown, and consider the highlighted features for each design. Plus, check out the handy design tips found throughout the guide to ensure your sink choice works with your space and your budget.

Visit **moen.com** to view the entire selection of Moen® sink options with complete product specifications, installation instructions and warranty information.

## Professional Style

From restaurant-grade appliances to custom cabinets, you want your kitchen to make a bold impression. When your kitchen has the capability to cater a party for 100 people, you need a sink with enough impact in size and style to command attention among the other industrial elements in your kitchen.

## Features you might like:

- A square sink is well-suited to the look of commercial appliances.
- In addition to offering a chic, international design element, a sink with zero-radius (angled) corners maximizes usable bowl area and makes it easier to clean.
- SoundSHIELD™ undercoating provides state-of-the-art sound-deadening for years of quiet performance.

**TIP:** When placing your sink, the National Kitchen and Bath Association recommends at least 24" of countertop on one side of the sink and a minimum of 18" on the other.

## Sinks to consider:

### Lancelot Professional

MODEL NUMBER:

22379

STEEL:

16-gauge

SIZE:

34L x 20W x 10D

15  
YEAR LIMITED  
WARRANTY

### Lancelot Professional

MODEL NUMBER:

22380

STEEL:

16-gauge

SIZE:

32L x 20W x 10D

15  
YEAR LIMITED  
WARRANTY

## Gourmet Cooking Station

You love to cook, and you prepare nearly all of your meals at home. From fresh vegetable omelets to three-course dinners featuring roasted duck breast with orange glaze, your kitchen runs on a full-time basis – which makes for plenty of clean-up. Be sure to put durable construction and plenty of room for dishes high on your wish list.

## Features you might like:

- Look for at least one 10" deep bowl to accommodate large pots and pans.
- Heavier-gauge steel will provide long-lasting durability – the lower the number, the thicker the steel.
- Drain holes that are located closer to the rear of the sink maximize work space within the bowl.

**TIP:** Combining an undermount sink with a high-arc faucet will make it even easier to access the sink and clean awkward items such as baking sheets.

## Sinks to consider:

### Lancelot

MODEL NUMBER:

22377

STEEL:

18-gauge

SIZE:

34L x 18W x 8D & 10D

15  
YEAR LIMITED  
WARRANTY

### Lancelot

MODEL NUMBER:

22362

STEEL:

18-gauge

SIZE:

29L x 16W x 10D

15  
YEAR LIMITED  
WARRANTY

## Gathering Space

You want a kitchen that allows you to stay connected to what's happening in other rooms of your home as well as a place where people gather to share conversation. This open-access floor plan essentially turns your kitchen into another living room, so you'll want a sink that blends into your décor, not distracts from it.

## Features you might like:

- For added convenience, consider adding a secondary sink to allow several people to work simultaneously. Or use your additional sink as a beverage center.
- Undermount sink installation provides a sleek, understated look that allows your countertops to shine.
- D-shaped bowls have a gently rounded shape that is easier to clean.

**TIP:** Controlling sound is important when your kitchen is open to adjacent rooms. Moen SoundSHIELD™ coating will dampen noise caused by dishes and vibrations.

## Sinks to consider:

### Lancelot

MODEL NUMBER:

22357

STEEL:

18-gauge

SIZE:

29L x 16W x 8D

15  
YEAR LIMITED  
WARRANTY

### Camelot

MODEL NUMBER:

22242

STEEL:

20-gauge

SIZE:

9L x 12W x 5½D

10  
YEAR LIMITED  
WARRANTY

## Compact Functionality

If you don't have an abundance of square feet in your kitchen, it's important to make the room work as efficiently as possible. When space is at a premium, even your choice of sink can help you keep things running smoothly. Think flexibility. Think in all dimensions. Size may be limited, but creative use of space is not.

## Features you might like:

- Extra mounting holes can accommodate useful accessories such as a soap dispenser or instant hot water tap.
- Attach your garbage disposal to a shallow bowl to maintain maximum storage space in the cabinet below.
- Double bowls let you accomplish different tasks in one location (rinse veggies in one bowl, place dishes in other).

**TIP:** Keep in mind that a wide sink will reduce your available counter space. The National Kitchen and Bath Association recommends a linear total of 158" of countertop.

## Sinks to consider:

### Lancelot

MODEL NUMBER:

22316

STEEL:

18-gauge

SIZE:

33L x 22W x 8D

15  
YEAR LIMITED  
WARRANTY

### Camelot

MODEL NUMBER:

22238

STEEL:

20-gauge

SIZE:

25L x 22W x 7 $\frac{1}{4}$ D & 5D

10  
YEAR LIMITED  
WARRANTY

## Budget-Minded Remodel

You want your kitchen to look great, but you have to stretch your budget to cover everything on your wish list. With Moen, you won't have to sacrifice quality to get a stainless steel sink you'll love for years.

## Features you might like:

- Drop-in sinks are easier and less expensive to install.
- A low-profile lip will trap less dirt where the sink rests on your counter.

**TIP:** Look for a longer spout reach when pairing your faucet to a multiple bowl sink. Better yet, consider a faucet that features a pullout spout so you can easily rinse out your sink.

## Sinks to consider:

### Excalibur

MODEL NUMBER:

22831

STEEL:

22-gauge

SIZE:

25L x 22W x 6½D

5  
YEAR LIMITED  
WARRANTY

### Excalibur

MODEL NUMBER:

22826

STEEL:

22-gauge

SIZE:

33L x 22W x 6½D

5  
YEAR LIMITED  
WARRANTY

## Determine the mounting options on your sink.

- Faucets are measured by the distance between mounting holes, center-to-center.
- Most two-handle kitchen faucets are 8-inch centers, while bar faucets are 4-inch centers.
- If you chose a single-hole mount faucet, extra holes can be covered by a deckplate or used for accessories such as a soap/lotion dispenser.
- Undermount sinks allow unlimited flexibility with faucet position.

### 1-HOLE

### 3-HOLE, 8" centers

### 2-HOLE, 4" centers

### 4-HOLE

### UNDERMOUNT

## Consider faucet functionality.

**Pullout spout** provides easy access in and around the sink.

**High-arc spout** is perfect for filling large pots.

**Single-handle faucet** offers convenient one-hand operation.

**Two-handle faucet** provides precise temperature adjustment.

**Bar faucet** brings water to entertainment or prep areas.

## COMMON TERMS

**Drop-In:** An installation technique in which the sink lip lays on the top of the counter material. Also called self-rimming.

**Gauge:** A measurement of thickness, typically 18-gauge to 22-gauge. The lower the number, the thicker the steel.

**Mounting Holes:** The holes drilled into a sink used for attaching a faucet, side spray, soap dispenser. Sinks may include one, two, three or four holes. Some undermount sinks don't include holes because the holes are drilled into the counter onsite.

**Undermount:** An installation technique in which the sink is attached to the underside of a solid counter (granite or solid surface) using clips.

**SoundSHIELD™:** A state-of-the-art, sound-deadening material applied on Moen® stainless steel sinks. This dense undercoating material is precisely applied for exceptional noise reduction from the quiet dependability of Excalibur® to the whisper-quiet luxury of Lancelot® sinks.

## CLEANING INSTRUCTIONS

SITUATION	RECOMMENDED CLEANER	METHOD OF APPLICATION
Routine cleaning	Soap, ammonia, detergent and water	Rub with a sponge or cloth. Rinse with clean water and dry. Satisfactory for all finish types.
Smears and fingerprints	Window or glass cleaner	Rub with cloth. Satisfactory for all finish types.
Persistent spots and stains	Stainless steel cleaner	Apply with sponge or cloth. Rub back and forth in direction of grain lines. Rinse with clean water and dry. NOTE: Not for mirror finishes.
Hard water spots and scale	Vinegar (full strength)	Swab and soak for 5–10 minutes. Rub, then rinse with a neutralizer (such as a baking soda solution). Rinse with clean water and dry. Satisfactory for all finish types.
“Rusty” discoloration and atmospheric stains	Any of the above	Swab with a cloth and soak for 5 minutes. If necessary, rub with a nylon pad. Rinse with clean water and dry. Satisfactory for all finish types.

Although descriptions are believed correct at publication approval, accuracy cannot be guaranteed.
