

**MOEN OFFERS A VARIETY OF DESIGN AND STYLE OPTIONS IN THE BATH WITH
THREE NEW FAUCET COLLECTIONS AT THE HOME DEPOT**

North Olmsted, Ohio... Moen, the number one faucet brand in North America, increases its bathroom offerings at The Home Depot with three new collections: Telford™, Kleo™ and Belmont™. Offering diverse styles, from traditional to contemporary, each bath suite offers homeowners an on-trend design to meet their needs.

“In a recent Moen survey, 85 percent of homeowners said they would like to change their bathroom,” said Andrea Conroy, director of retail marketing, Moen. “With the introduction of these three new faucet collections, Moen offers homeowners an easy and affordable way to update this room – no matter what their design preference.”

Telford Bathroom Collection

The traditionally styled, two-handle Telford bathroom faucet (\$89)* features a classic style with lever handles and a high-arc spout to make everyday tasks easy, such as washing your face and hands.

The benefits of this new collection extend into the shower as well. The Telford single-handle, shower-only faucet features a nine-inch rainshower with Moen’s innovative, self-pressurizing InvigoRain™ technology (\$154)*, which channels water through the showerhead with up to three times more spray power than other rainshowers for an exhilarating shower experience. The nine-inch rainshower is also sold separately in a Chrome finish (\$49.99)*.

The Telford suite is available in the new Spot Resist™ Brushed Nickel finish from Moen. Spot Resist does just what it says – resists fingerprints and water spots. The innovative finish maintains the brilliance of bathroom faucets and showerheads for a fresh appearance.

Kleo Bathroom Faucet

The single-handle, low-arc Kleo faucet features soft, contemporary lines for a sophisticated, modern bathroom. For added design flexibility, the faucet can be installed in a single-hole or a three-hole configuration using a cover plate. The Kleo faucet is available in a Chrome finish (\$84)*, which is ideal for modern styling.

Belmont Bathroom Faucets

With a simple and classic design, the Belmont faucets offer timeless appeal. Each faucet features a popular two-handle, centerset design with a low-arc spout. The traditionally styled faucets are available in both Chrome (\$79)* and Spot Resist Brushed Nickel finishes (\$98)*.

In addition to the beautiful styling, the bathroom faucets in each collection have been certified to meet WaterSense® criteria, meaning the fixtures meet the Environmental Protection Agency's (EPA) guidelines as an environmentally responsible and efficient product. The faucet is flow-optimized and allows water to flow at 1.5 gallons per minute (gpm), versus traditional aerators that flow at 2.2 gpm. This provides consumers the sensational water experience they are accustomed to, while reducing water usage by up to 32 percent.

Each faucet also meets ADA requirements for the physically challenged. All products feature Moen's Limited Lifetime Warranty to ensure superior quality.
