North Olmsted, Ohio... Did you know nearly 235,000 people visit the hospital every year with injuries caused by falling in the bathroom?* Fortunately, adding a grab bar to the slippery space can make the bath safer. Some homeowners may be reluctant to install safety elements to avoid having the bathroom look institutional. However, new Moen® Voss™ grab bars combine safety *and* style. The addition completes the popular transitional collection, which features matching faucets, accessories and showering products.

“The ‘living in place’ trend has opened up countless opportunities for consumers of all ages to create a safe and stylish bathroom, making grab bars an important add-on accessory for peace-of-mind,” said Chris Nealon, wholesale product manager, Moen. “Consumers told us they desire a unified look at an attractive price point, and we listened.”

VOSS GRAB BARS FEATURE NOTABLE MOEN INNOVATIONS:

SecureMount™ System

SecureMount™ Grab Bars feature a flange design that allows for secure installation into any stud at any angle. They are compatible with SecureMount Anchors which make it possible to quickly, easily and securely install a grab bar anywhere on the wall, with or without studs.

Voss grab bars also feature Moen’s limited lifetime warranty** to ensure superior quality.

For more information about the new Voss grab bars, visit moen.com or call 1-800-BUY-MOEN (1-800-289-6636).
